Subject: Microsoft settlement

I think it's high time to settle this matter on the basis of what has been proposed.

To prolong this matter and hear radical efforts to prolong it even more is a disservice to this nation and to its people.

As a WWII enlisted combat Inf. vet of 3d ID (Audie's outfit) - I say enough yet!!!!

We got enough enemies without our country trying to "do us dirt" to add our own home grown varieties to the pot.

Cut it off!!

Make an end of it!!

Get on with the nation's business, stop ALL THE CRAZIES!
